

Choji Alexander Pam

B.ENG Computer Engineering, Software Engineer/Developer.

I am a good thinker with solutions and always eager to learn and grow.

I am comfortable in communicating and building relationships with others, also at analysing ideas, generating results and strategies that support the overall growth of my team. I am passionate about impact, diligence and discipline. I am also passionate about my growth as a Software Engineer, and I spend a lot of time on my work and study.
